DIRECT EDGE
MANUFACTURING

NEW ERA
NEW GENERATION
NEW EDGE

Direct Edge Manufacturing provides an innovative one stop shop for all sheet metal manufacturing and associated components.

We service the mining, marine, agricultural, emergency vehicle, defence and food industries.

Cutting edge technology delivers world class optimal and cost effective solutions along with a certificate of compliance. With modern technology and adaptable production capabilities available we are in the position to add value and drive competitive advantage into your supply chain.

Location: Australia
Employees: 32
Ownership: Privately owned Australian Company

COMPETITIVE DISCRIMINATORS

- Australian owned and operated, Direct Edge Manufacturing distribute high quality Australian made products worldwide
- Full range of services provided from receipt to dispatch of order
- Offer low to high volume production
- Deliver an extensive range of solutions to all industry sectors
- Latest CNC automated technology ensures reduced lead times and guaranteed precision
- Diverse range of finishes that include painting, powder coating, galvanized plating, engraving or electro polishing
- Quality certificate of compliance provided with Romer and InspecVision quality systems
- Dedicated R&D and Continuous Improvement Team
- International Welding Specialists and Welding Inspectors on site
- Certification to ISO 3834-2 – Quality of Fusion Welding & DIN 2303:2007 Welding & Allied Processes – Quality Requirements for Production & Maintenance Companies for Military Products

PRODUCT/CAPABILITIES

- Fully integrated ERP system to control quality, flow, product identification and resource allocation
- Specialize in working with mild steel, stainless steel, aluminum, galvanized steel, copper, brass, timber, acrylics, polyethylene, polycarbonates, aluminum composites and rubber
- Components for above ground and underground mining equipment
- Components for agriculture and marine industries
- Emergency vehicle cabinet fabrication
- Design and manufacture aftermarket machinery guarding
- Stainless steel staircases and balustrades
- Manufacture a range of signage solutions
- Food grade stainless steel parts and components
- Design and manufacture electrical and control cabinets
- Design and manufacture locomotive and rail components and assemblies
- Stainless steel sinks, benches and cabinets
- Components for industrial road sweepers

HIGHLIGHTS

- Founded in 1987, Direct Edge Manufacturing has been operational for over 30 years supplying these parts into this market
- ISO triple certification includes Quality, WH&S and Environmental
- Welding certification to ISO 3834-2 & DIN2303

VALUE PROPOSITION

Direct Edge Manufacturing provides an innovative one stop shop for all sheet metal manufacturing and associated components. We offer a range of services from design/drafting, prototype assembly, varied production quantity, quality assurance testing, final assembly, and powder coating as we have demonstrated working with clients such as CAT, Mader International, Taylor Brothers, SERS, Elphinstone Group, Sewell Sweepers, Levitator, Codan Ltd, Marand, Rheinmetall, and VEC Civil Construction. Supplying ready to assemble components to any product line, Direct Edge Manufacturing has a proven 98% D.I.F.O.T. over the past 4 years into the globalmarket and are a supply chain partner for you.

Through triple certified ISO systems Direct Edge Manufacturing have reduced their environmental footprint, minimized Workplace Health and Safety risk and are able to be heavily invested in Continuous Improvement with the main benefits resulting in reduced lead times and the ability to move between low and high-volume production streams. Direct Edge Manufacturing's cutting edge technology delivered by Trumpf CNC Machinery provides world class optimal and cost effective solutions along with a certificate of compliance courtesy of a Hi-Tech Metrology AbsoluteRomer Arm 7325.

Facilitation of ISO 3834-2 & DIN 2303:2007 by an International Welding Specialist & Welding Inspectors onsite offers a range of welder qualifications to a variety of Australian and International Standards.

Direct Edge Manufacturing via modern technology and adaptable production capabilities are in the position to add value and drive competitive advantage into your supply chain.
